- ◆ Available in 8" High Collar for hot mop applications.

## Also available in **AWARD STONECOAT™** finish.

**Award Metals** has developed the unique **AWARD STONECOAT™** process to eliminate the common drawback to all standard roof vents . . . they are visually unattractive. Some are bare metal, some are bright plastic. Bare metal, even galvanized metal, rusts long before the roofing surface needs to be replaced. A painted roof vent usually results in a poor match to the roofing surface and will likely eventually fade or peel. By using **AWARD STONECOAT™** products for your roof venting, both longevity and appearance are greatly enhanced.

**Bare Unfinished Metals**

**AWARD STONECOAT™**
